Subject: Peterborough – Bottled Water Facility: Highland Springs (EPA #1876980)

Dear Mr. Foy:

The records of the Department of Environmental Services (DES) show that Highland Springs uses groundwater as a source for bottling water for human consumption. As such, the facility is required to submit samples to the State laboratory or a State-certified laboratory for coliform bacteria analysis in compliance with NH Admin. Rule Env-Ws 389.22. DES records show that the subject facility failed to submit bacteria samples and as a result Monitoring/Reporting (M/R) violations were issued for the following months:

**June 2003 and June 2004**

In view of the Monitoring/Reporting violations, DES believes the deficiencies can be corrected by taking the following actions:

**By August 12, 2004**, submit a water “make up” sample for bacteria analysis to the state laboratory, or a state-certified laboratory, in accordance with NH Admin. Rule Env-Ws 325.

Please continue to submit water samples according to the facility’s Master Sampling Schedule enclosed.

In the event compliance is not achieved within this period, DES may take further enforcement action, including issuing an order requiring the deficiencies be corrected, initiating an administrative fine proceeding and/or referring the matter to the NH Department of Justice for imposition of appropriate penalties.

Letter of Deficiency #WSEB 04-099

**Please be reminded to carry out the public notice requirements and provide proof of public notice to DES for the June 2004 monitoring/reporting violation.**

Please contact Anne Bailey by phone at (603) 271-0672 or by e-mail at [abailey@des.state.nh.us](mailto:abailey@des.state.nh.us) if you have any questions regarding this letter.

Sincerely,

Rene Pelletier, P.G., Manager
